Attach Back piece for Eyes/Nose

Do not finish off last part.

Attach the back panel for the eyes/nose.

Panel is slightly wider than face to push the face out a little.

You can leave ends loose as they will be hidden inside the skull.

Now, close up the skull by forming the side panels of the skull.

Work in rounds, do not turn your work while making the side panels. (Work in a spiral towards the center of side panel)
